01 Welcome to WMS shaping future leaders in hospitality and management

At Worldwide Management Studies, we believe that education goes beyond textbooks and examinations. It is about shaping who you become. It is about taking your ambition and turning it into a career that spans continents. Located in Kolkata, WMS has built a strong reputation as a leading institute that prepares students for leadership roles in hospitality, healthcare management, and business administration.

We offer programmes ranging from Diplomas to Master's degrees in Hotel and Hospitality Management, Cruise Ship Operations, Hospital Management, BCA, MCA, BBA, and MBA. Each programme combines strong academic foundations with practical industry exposure. At WMS, learning happens through hands-on training, live projects, and mentorship from professionals who have worked in the very industries you aspire to join.

What truly sets WMS apart is our commitment to your career. We have an outstanding record of placing graduates in respected positions around the world. Our 100% Abroad Placement Guarantee reflects the confidence we have in our students, our training methodology, and the trust that international recruiters place in WMS graduates year after year.

Your future begins with a single decision. Whether you see yourself managing luxury hotels in Europe, working aboard international cruise liners, leading hospital administration, or building a career in business and technology, WMS is where that vision becomes real. We welcome you to explore our programmes, visit our campus, and understand why students continue to choose WMS as the starting point for their global careers.

02 Chairman's Message

When I founded Worldwide Management Studies, I carried with me a conviction shaped by over thirty years in the hospitality industry. I had seen talented young people struggle not because they lacked intelligence or ambition, but because their education had not prepared them for the realities of the professional world. Theories and textbooks have their place, but I knew that true readiness comes from learning by doing. This belief became the foundation of WMS, and it continues to guide everything we do.

At WMS, we have built an institution where classrooms connect directly to careers. Our students do not simply study hospitality or management. They experience it. They train in real environments, solve real problems, and develop the confidence that comes from knowing they can perform under pressure. I have always believed that when you give students a strong practical foundation, you are not just teaching them skills. You are giving them the ability to walk into any room, anywhere in the world, and belong there.

To the students reading this, I want you to know that your dreams are valid and achievable. The world needs professionals who are prepared, adaptable, and excellent at what they do. If you commit yourself to learning with sincerity, WMS will open doors for you that you may not even know exist today. Our placement record, including our 100% Abroad Placement Guarantee, is proof that when students and institution work together with shared purpose, extraordinary outcomes follow.

To the parents, I understand the weight of this decision. You are entrusting us with your child's future, and that is a responsibility we do not take lightly. I give you my word that at WMS, your son or daughter will receive not just an education, but a launchpad into a career that makes you proud. I invite you to visit our campus, meet our faculty, and see for yourself the environment we have created. I am confident you will find a place where your child's potential will be recognised, nurtured, and realised.

**Warm regards, Mr. D.K. Ghosh Founder and
Chairman Worldwide Management Studies**

03 Why Choose WMS

Choosing the right institute is one of the most important decisions in your academic journey. At WMS, we understand that you are not just looking for a degree. You are looking for a future. Here is what makes Worldwide Management Studies the right choice for students who aspire to build careers that cross borders.
